

AED ACCESS AT VALLEY CRICKET

The automated external defibrillator (AED) is located in the AWAY changerooms of Peter Easton Oval, #1 oval, it is the changeroom circled in the below picture. The away changerooms are on the right-hand side when facing the front of the building.

This door is labelled First Aid.

Access to this room is by pinning in 1897 on the door as shown below.

The AED is located on the back wall on left hand side of the changerooms when entering.

QAS have been notified of the move and access pin, this means when a member of the public needs access to an AED that 000 can inform them of the whereabouts co-ordinates and how to access the room.

Any questions or if you need a run-through of how to work the door please talk to Dan Kelly, General Manager.
